PE-Footstep sound insulation

Solid[®]

PE-Footstep sound insulation

Blue

Tested according to ÖNORM B6010, EN29052-1 and EN 13501-1 (Fire behaviour class E)

Item number 1400-...

Technical data	Unit	Value	Test method
Material		PE foam with a closed cell structure	
Thickness	mm	5	
Volume weight	kg/m ³	22	STN 64 7011:1977
Standard width	cm	100, 150	
Standard length	m	50, 75	
Absorption	Obj. %	Max. 2	STN 64 5421
Dimensional stability	%	Max. 2	STN 64 5405
Effects - Environment		environment-friendly, freon-free, 100% recycelb.	
Hygienic assessment of materials		Health - Hygiene perfect material	Order by the main hygienikers SK
Footstep sound insul. ΔL_w	dB	18	STN EN ISO 717-2

The information, and, in particular, the recommendations relating to the application and end-use of SMET distributed products, are given in good faith based on SMET's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with the manufacturer's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. The manufacturer reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
