

Sustainability Policy

SMET recognises and acknowledges our obligations to improve the environment and our responsibilities to all stakeholders affected by our operations.

The world has finite resources, rapidly depleting and Smet Building Products management are committed to making significant contribution to improving the world in which we live by implementing our policy of sustainable sourcing of dry mortar products and services. This is based on the prevention of pollution and the reduction of the company's environmental impacts as well as the social and economic wellbeing of its stakeholders.

Smet Building Products Ltd makes a commitment to:

- Ensuring 100% traceability of our product. Our product will always be traced back to the manufacturer
- Monitor and minimise transport impacts
- maximising material efficiency and the use of recycled materials
- the reduction energy intensity
- the reduction of water use

The company shall comply with legal and other requirements to which it subscribes in relation to its environmental impacts and corporate social responsibility.
